## EMPHASER FUSE HOLDERS

New to the EMPHASER range are three fuse holders in sizes 10 mm<sup>2</sup>, 25 mm<sup>2</sup> and 50 mm<sup>2</sup>.

The fuse holders use ATC or M-ANL fuses and are housed in a splash-proof housing: the silicone sealing rings on the cover and the cable routings reliably keep any splash water away.

So that the right tool is always at hand in case of an emergency, the enclosed allen keys can be fixed directly to the fuse holder.

### ESP-FH10

- ATC fuse holder
- Suitable for 10 mm<sup>2</sup> power cable
- Splash-proof closed housing
- Scope of delivery: 1 x fuse holder, 2 x 15 A ATC fuse, allen key for easy fuse replacement

### ESP-FH25

- M-ANL fuse holder
- Suitable for 25 mm<sup>2</sup> power cable
- Splash-proof closed housing
- Scope of delivery: 1 x fuse holder, 1 x 80 A M-ANL fuse, allen key for easy fuse replacement

### ESP-FH50

- M-ANL fuse holder
- Suitable for 50 mm<sup>2</sup> power cable
- Splash-proof closed housing
- Scope of delivery: 1 x fuse holder, 2 x 60 A M-ANL fuse, allen key for easy fuse replacement
